**DNA-TEST OF
STAFFORDSHIRE BULL TERRIER**

FORM 2
English

Samples and identification

- The blood-sample (EDTA-only) must be labeled with the dogs ID-number
- The blood-sample and this form must be **shipped directly from the veterinary clinic** to the Veterinary faculty (NMBU, Norway) to avoid mix-up of samples/labeling
- A copy of this form must be sent to the Norwegian Kennel club (post / email)
- A fee of NOK100.- for each blood-sample is invoiced by the Norwegian Kennel club at registration

Addresses:

- Veterinary faculty-NMBU, Medical genetics, PO.box. 5003 NMBU, 1432 Ås, Norway; **dogdna(a)nmbu.no**
- Norwegian Kennel Club, Registreringsavdelingen, PO.Box 52, Holmlia, 1201 Oslo; **registrering(a)nkk.no**

Please use capital letters:

Reason for sampling: <ul style="list-style-type: none">• Used for breeding with dam living in Norway. Litter No.: _____.• Dam's name and registration no: _____• Imported from (country): _____ for registration in the Norwegian Kennel Club• Semen-donor from (country): _____• Father of imported dog; registration number of import: _____• Mother of imported dog; registration number of import: _____• Other storage of blood (only when confirmed by NKK)	

Owner declaration

I hereby declare that the correct dog (with the given breed and registration number) is presented for blood sampling. I accept that false information will prohibit that the litter will be registered in the Norwegian Kennel Club (or deleted from records) and that the Norwegian Kennel Club have no responsibility for this.

The samples may be used for research to improve health in the breed if all information concerning dog and owner is kept strictly confidential.

YES ☐ NO ☐

Veterinarian's declaration

I hereby declare that the blood samples are taken from the dog with the ID-number given on this form and on the blood samples. The blood samples are shipped directly from the veterinary clinic to the Veterinary faculty (NMBU)-Norway to avoid potential mix-up of samples/labeling
